

Policy: Advertising Sports Cars for Sale

The use of the Sports Car Club email list to advertise cars for sale will not be permitted except in the following circumstances:

1. Club members may submit a request to the Club President for a onetime email notification to the club membership that they have their sports car for sale.
2. For purposes of this policy, Club Member is defined as the current members listed on the club roster, members of their immediate household, and the spouse of a deceased former club member who is selling the car owned by the deceased spouse.
3. Advertisements are limited to sports cars on the Club's list of approved sports cars.
4. An advertisement must not be more than one page in size. It may include a photo.
5. Club members may, in lieu of using the Club email list, request a onetime advertisement displayed at the sign-in table prior to a general membership meeting. A club member may use this method to advertise a sports car owned by a family member who is not a part of the immediate household.
6. Club members who advertise a sports car pursuant to this policy assume all responsibility for the content of the advertisement and sale of the vehicle.
